## Quoted figures are comprehensive:

Including approach and landing fees, training materials, etc.

## Other items you will need to budget for

Medical fees, licence fees, travel, accommodation and living costs..

The total cost of a modular programme, including flying hours is generally between £55,000-£70,000. If you already have a PPL you can knock £8,000-£10,000k off these figures. This compares favourably to an integrated course where the costs of training to the same point are typically more than £100,000.

The schools listed are only an example of a modular training route. We will help Wings Alliance members with their choice of schools.
